**RE: Proceeding No. 1457147
Coal Bed Methane (CBM) Review Hearing
Review Application 1406894 by Luscar Ltd. (now CDP) on Devon Canada
Corporation**

As you are aware, the writer acts on behalf of Carbon Development Partnership (CDP) in connection with the Devon applications.

In response to your letter of July 27th, 2006 we adopt the position of Mr. Edie in his letter of today's date in relation to the Fairborne Energy Ltd. applications. In relation to the Devon application, we are of the view that all of the material documentation leading up to the EUB's dismissal letter of 2005-05-26, which documents are set out in the attached list and provided in PDF format with the electronic version of this correspondence, should be added to the documents on the EUB website.

We would point out that the PDF copies of the documents provided come from our files and the EUB may have better copies of such documents.

In addition, in reviewing the Phase II documents we note the following:

2006-06-08	CDP Submission re: Devon	The cover letter only is posted; the attachment to the cover letter that is posted is simply another copy of the cover letter
2006-06-12	CDP <i>Amended</i> Submission re: Devon	Neither the cover letter nor the submission are posted.

These documents are provided in PDF format with the electronic version of this letter.

Yours truly,

FIELD LLP
