ALBERTA ENERGY AND UTILITIES BOARD
640 - Fifth Avenue, S.W.
Calgary, AB
T2P 3G4

Attention: Ms. Tamara Bews

Dear Madam:

Re: Proceeding 1457147 (the "Proceeding")

In light of the fact that the Proceeding is a review of a number of applications by gas producers for, among other things, well licences and holding orders, Carbon Development Partnership ("CDP") believes that it is both relevant and desirable that the parties to the proceeding have ready access to the application documents, submissions made by the parties to those applications and correspondence between those parties and the Board relating to the applications, the Board's disposition of those applications and the relevant documents relating the review requests and requests for hearing made by CDP, in respect of the Fairborne Energy Ltd. applications, as well as the submissions made by the parties and correspondence between the Board and parties to those requests for review and for a hearing. In that regard, please find attached a listing of documents CDP believes relevant in connection with the foregoing. These include the documents identified above, filed by CDP and others, but excludes correspondence simply requesting clarification from the Board or extensions of filing deadlines. CDP requests that the documents listed be posted to the Board's website.

We understand those documents which are checked under the column "scan attached" may not have been provided to the Board previously in PDF format.

Since this letter is being provided to all Proceeding participants, rather than attaching those documents to this letter, our office will provide directly to the Board copies of those documents in PDF format for posting to the Board's website.

If you have any questions concerning this matter, please do not hesitate to contact me.

Yours truly,

CARSCALLEN LOCKWOOD LLP

D.C. Edie
