**RE: Request for Review  
Bears paw Petroleum Ltd.  
Compulsory Pooling Application No. 1406764  
Ewing Lake Field: Sec. 13-37-21 W4M**

EnCana Corporation is the owner of an estate in fee simple in natural gas underlying 96.4 acres and coal rights underlying 375.9 acres of section 13-37-21 W4M.

EnCana agreed to pool natural gas excluding coal bed methane to drill a well at 9-13. However, EnCana and Bears paw Petroleum Ltd. could not agree on the definition of the excluded substance. On September 20, 2005 the board directed that the pooling order be issued for natural gas in the Belly River group including the coal strata.

EnCana hereby requests a review of the order on the grounds that we will be adversely affected by its issuance. Without separate measurement of coal and natural gas, we cannot determine our share of the commingled production stream to be allocated to the coal rights.

In this regard, if the order is granted we request that pursuant to section 86 of the Oil and Gas Conservation Act, that the balance of proceeds from the sale of production from split title, are held in trust by the Provincial Treasurer.

Yours truly,
