Dear Sir:

Re: Bears paw Application No. 1423722
Licence No. 0344816
13-21-038-20 W4M

Might the captioned matter for which review and variance is sought be one for consideration also at the hearing scheduled at month's end in respect of the various coalbed methane matters – the issue being the common one of whether review and variance ought to be given.

Yours truly,

Christian J. Popowich
