EX 220

Surmont Producers Group

Panel 1

Direct Evidence

June, 1999

The Surmont Producers Group
are of the opinion that in view of the
Pervasive IHS Layer at Surmont
separating
the Upper McMurray Gas Sands
from
the Middle McMurray Bitumen Sands
continued production of
the Upper McMurray Gas Reserves
will not impact on, or result in wastage of, the
Bitumen Resource Potential at Surmont
