

**In the Matter of Alberta Energy and Utilities Board
Proceeding No. 1347905, Bitumen Conservation Requirements
Athabasca, Wabiskaw-McMurray Phase 3 Final Hearing**

**Petro-Canada Response to Information Request of Canadian Natural Resources Limited
(CNRL)**

001 Reference: In its February 14, 2005 Submission, Petro-Canada presented evidence relating to pressure data obtained from 4 observation wells equipped with piezometer gauges.

Request: In order to fully evaluate the evidence, CNRL seeks the complete data set on which this submission was based. In particular, CNRL seeks the full pressure record for all the gauges installed in these wells, as well as a complete drilling and completion record for each well.

Response: Please refer to attached CD for full pressure record and complete drilling and completion record.
