Attention: Brett Norris

Dear Sir:

**ALBERTA ENERGY AND UTILITIES BOARD (EUB/BOARD)
BITUMEN CONSERVATION REQUIREMENTS
PHASE 3 FINAL PROCEEDING
PARAMOUNT ENERGY OPERATING CORP. (PEOC)
INFORMATION REQUEST PROCESS**

The Staff Submission Group (SSG) has considered PEOC's responses to the SSG's information requests. The SSG is of the view that PEOC may not have provided a complete response to SSG-PEOC-15. That request reads as follows.

Reference: PEOC February 14, 2005 Submission, Epic Consulting Services Ltd. Report, dated February 2005, pages B10 to B12.

Request: Please provide the Fekete Associates pressure transient-test study referred to on pages B10 to B12 including a list of the wells used in the study and the pressure analyses conducted.

In response, PEOC stated the following.

Reply: A well test analyst from Fekete reviewed the following tests obtained from Paramount's well files and provided the general summary on pages B10-11 of Appendix B.

While PEOC provided the list of wells considered in the referenced study/analyses, it did not provide the transient test study referred to on pages B10 and B11 nor did it provide the pressure analyses conducted. Please provide the transient test studies and pressure analyses requested. If PEOC is not prepared to provide the information requested by the SSG please provide PEOC's reasons for its refusal, as required by section 29 of the EUB's *Rules of Practice*.

Yours truly,
Original Signed by JP Mousseau

JP Mousseau
