Alberta Energy and Utilities Board
640 – 5th Avenue S.W.
Calgary, AB T2P 3G4

Attention: Gary D. Perkins

Dear Mr. Perkins:

**ALBERTA ENERGY AND UTILITIES BOARD
BITUMEN CONSERVATION REQUIREMENTS
PHASE 3 FINAL PROCEEDING**

Please be advised that the Staff Submission Group (SSG) is seeking leave from the Alberta Energy and Utilities Board (Board) to file the attached addendum and errata to its February 14, 2005 Declaration and Supporting Evidence for the Bitumen Conservation Phase 3 Final Hearing.

Following its review of the materials filed, the SSG recognized that it mistakenly omitted 31 wells from its Declaration and the evidence filed in support thereof. The additional wells recommended for shut-in are listed in a revised Appendix 1 and are recommended shut-in pursuant to the discussion found in Section 6 of the SSG's February 14th filing.

The SSG apologizes for any inconvenience this may cause the Board or other interested parties. However, the SSG believes that the filing of the amendment and errata will not prejudice any of the parties and contends that consideration of its additional recommendations is in the public interest.

Yours truly,

Original Signed by JP Mousseau
