

ALBERTA ENERGY AND UTILITIES BOARD

IN THE MATTER OF THE *ALBERTA ENERGY AND UTILITIES BOARD ACT*, R.S.A. 2000, Chapter A-17; the *ENERGY RESOURCES CONSERVATION ACT*, R.S.A. 2000, Chapter E-10; the *OIL AND GAS CONSERVATION ACT*, R.S.A. 2000, Chapter O-7; and section 3 of the *OIL SANDS CONSERVATION REGULATION*, AR 76/88.

AND IN THE MATTER OF THE FOLLOWING PROCEEDINGS:

NUMBER 1333566 (Phase 3 Proceedings under EUB *General Bulletin (GB) 2003-28: Bitumen Conservation Requirements*);

NUMBER 1067996 (application for approval to produce gas, Paramount Resources Ltd.);

NUMBERS 1290220 AND 1294457 (applications for approval to produce gas, Paramount Energy Trust Operating Corp.);

NUMBER 1299696 (application for approval to produce gas, EnCana Corporation);

INTERIM SHUT-IN ORDER 04-001

WHEREAS the Alberta Energy and Utilities Board (Board/EUB) issued *General Bulletin (GB) 2003-28: Bitumen Conservation Requirements Athabasca Wabiskaw–McMurray*, on July 22, 2003, as it appeared to the Board that the ultimate recovery of crude bitumen from the Wabiskaw–McMurray in the Athabasca Oil Sands Area was affected by gas production from wells completed in the oil sands strata in the application area, or in the areas set out in the Wabiskaw or McMurray Pool Orders that overlap the application area, and that immediate action was required;

AND WHEREAS the Board adopted a three-phase approach in *GB 2003-28* for purposes of conservation of the ultimate recovery of crude bitumen in the Wabiskaw-McMurray of the Athabasca Oil Sands Area;

AND WHEREAS on July 22, 2003, as Phase 1, the Board issued Interim Shut-in Order 03-001 ordering the interim shut-in of the wells listed in Schedule A of the Order by September 1, 2003, unless temporarily exempted in accordance with *Interim Directive (ID) 99-1: Gas/Bitumen Production in Oil Sands Areas–Application, Notification and Drilling Requirements*, as amended and published by the EUB;

AND WHEREAS Phase 2 provided an opportunity for parties to challenge exemptions through an expedited review process;

AND WHEREAS Phase 3 commenced with the release of the EUB's Regional Geological Study on January 2, 2004, and the issuance of the EUB Staff Submission Group recommendations to continue or vary the production status of gas zones within wells subject to *GB 2003-28*;

AND WHEREAS the Board convened a public hearing on March 10, 2004, to consider the above described Proceedings and Applications involving the production or the shut-in of gas from wells penetrating the Wabiskaw-McMurray in the Athabasca Oil Sands Area;

AND WHEREAS the Board stated that it would make decisions in the Proceedings and Applications on a pool basis;

AND WHEREAS the Board rendered [Decision Report 2004-045](#) on the 31st day of May 2004 with respect to the said Proceedings and Applications;

AND WHEREAS the Board stated in *GB 2003-28* that it intended to issue an interim order confirming or varying the production status of the wells considered in the said Proceedings and Applications.

THEREFORE it is ordered that:

1. The licensees of the wells listed in [Table 1](#) attached to this Order, or their respective successors, shall shut in or cause to remain shut in (as the case may be), on an interim basis, the particular Wabiskaw-McMurray intervals listed in Table 1, effective the 1st day of July 2004. Interim Shut-in Order 03-001 is rescinded effective the 1st day of July 2004 as to each of the particular intervals listed in Table 1.
2. Interim Shut-in Order 03-001 is rescinded effective the date of this Order as to each of the particular intervals listed in [Table 2](#) attached to this Order.
3. In overlapping gas pools, where one pool is allowed to produce and another pool or other pools are required to be or remain shut in, the pools must be segregated in all the wellbores that encounter a pool that is allowed to produce. Zonal segregation tests demonstrating segregation in the wellbores shall be conducted and submitted to the Board in accordance with subsections [11.150\(1\) and \(2\) of the Oil and Gas Conservation Regulations](#). If segregation between pools in all the wellbores is not achieved or is not demonstrated by zonal segregation tests that are submitted to the Board, then all pools encountered by the wellbores must be or must remain shut in (as the case may be).

4. The exemption process under Phase 1 of EUB *General Bulletin (GB) 2003-28: Bitumen Conservation Requirements and Interim Directive (ID) 99-1: Gas/Bitumen Production in Oil Sands Areas—Application, Notification and Drilling Requirements* is rescinded as of the date of this Order with respect to each of the particular intervals listed in Table 1 and Table 2.

Made at the City of Calgary, in the Province of Alberta, this 8th day of June 2004.
