Alberta Energy and Utilities Board  
640 - 5<sup>th</sup> Avenue S.W.  
Calgary, Alberta  
T2P 3G4

**Attention: Mr. Gary Perkins  
Board Counsel**

Dear Sir:

**Re: EnCana Oil and Gas Partnership (EnCana) Application No. 1394112  
Canadian Natural Resources Limited (CNRL) Application No. 1409180  
Husky Oil Operations (Husky) Application No. 1481725  
Cold Lake Oil Sands Area - Clearwater Deposit**

Further to the Board's letter of April 11, 2007, Husky has reviewed the Board's letter and EnCana's April 5, 2007 filing and has the following comments. Husky shares the Board Staff's concern that with EnCana's filing of additional gas flanking bitumen cases, using EnCana's own generic (flank) model, EnCana is attempting to inappropriately add information to the record of this proceeding.

Husky addressed a similar concern in its March 22, 2007 letter to the Board in respect of information EnCana filed as part of its March 14, 2007 filing with the Board. In its March 28, 2007 ruling, in response to Husky's objection, the Board allowed onto the record EnCana's March 14, 2007 letter and attachments and took the extraordinary step of directing an additional process that permitted Husky and EnCana to supplement the record by filing input and output data only in respect of existing cases that had been specifically referenced in the record prior to the close of the oral hearing and which were clearly described in the Board's ruling.

Board Staff has correctly pointed out that part of what EnCana filed, in response to the Board's clear direction, is comprised of runs that were not referenced in the Board's direction in respect of the additional process. With respect, this is a further abuse of the Board's process by EnCana. Fairness and the need for finality in the Board's hearing process requires that the Board disregard the additional information filed by EnCana.

Yours truly,

**BORDEN LADNER GERVAIS LLP**
