Alberta Energy and Utilities Board
8th Floor, Applications Branch
640 - 5 Avenue SW
Calgary, Alberta T2P 3G4

Attention: Mr. Ernie Smith

Dear Sir:

**Re: Application Nos. 1394112 and 1409180
Cold Lake Oil Sands Area - Clearwater Deposit
Responses to Information Requests and
Application to Shut In Clearwater Gas Production**

Borden Ladner Gervais LLP is counsel for Husky Oil Operations Limited (“Husky”) in the above noted proceedings. Pursuant to the Board’s Notice of Hearing dated June 9, 2006, Husky hereby submits one electronic and 15 copies of its responses to the information requests of the Board and of EnCana Oil and Gas Partnership.

Additionally, and further to the Board’s Letter to the Parties dated September 8, 2006, Husky respectfully submits its Application to Shut In the following wells in the Clearwater Gas Formation of the Cold Lake Oil Sands Area:

Clearwater Gas Pools	UWI	Licencee
Clearwater MU # 2	00/06-28-069-04W4M/3	EnCana Oil and Gas Co. Ltd.
Clearwater G	00/06-20-069-05W4M/0	EnCana Oil and Gas Co. Ltd.
Clearwater EE	00/05-13-069-06W4M/0	EnCana Oil and Gas Co. Ltd.
Clearwater MU # 2	00/12-04-070-04W4M/2	EnCana Oil and Gas Co. Ltd.
Clearwater CC	02/16-28-068-05 W4M/0	EnCana Oil and Gas Co. Ltd.
Clearwater MU # 2	00/05-16-070-05W4M/2	EnCana Oil and Gas Co. Ltd.
Clearwater DD	00/11-33-068-05 W4M/0	EnCana Oil and Gas Co. Ltd.
Clearwater Undefined	00/03-11-070-06W4M/2	EnCana Oil and Gas Co. Ltd.
Clearwater MU # 2	00/06-21-070-05W4M/0	EnCana Oil and Gas Co. Ltd.
Clearwater MU # 2	00/05-22-070-05W4M/2	EnCana Oil and Gas Co. Ltd.

CALGARY • MONTREAL • OTTAWA • TORONTO • VANCOUVER • WATERLOO REGION

The ten wells are located within the same formation and are in close proximity to the wells in Canadian Natural Resources Limited's ("CNRL") Application no. 1394112 scheduled to be heard, together with Application no. 1409180, by the Board on October 31, 2006. Husky's application involves the same issues and the same parties as CNRL's and EnCana's applications. Technical evidence related to the negative impacts of gas production on future bitumen recovery and development will be required in all three proceedings. For those reasons, and to increase regulatory efficiency and reduce duplication, Husky requests that its Application be joined with Applications 1394112 and 1409180, to permit the Board to consider all three applications at the same oral hearing.

The joining of Husky's application would prejudice none of the parties in the CNRL or EnCana applications. Nor would joining Husky's application result in a delay in the regulatory process or filing schedule set out in the Board's Hearing Notice dated June 9, 2006. Husky submits that all parties were made aware of Husky's intent to request the Board shut in the additional ten wells in Husky's Intervention Submission of September 5, 2006. All parties were given an opportunity to seek additional information through information requests. As stated above, the additional 10 wells are located within the same formation and are in close proximity to the wells in CNRL's application. Technical evidence related to the effect of associated gas production on bitumen recovery is the same for these ten wells. The information contained in Husky's responses to the information requests of the Board and EnCana is the same for these additional ten wells. It is not necessary, therefore, to make changes to the schedule for filing submissions set out in the June 9th Hearing Notice.

Please direct all communications with respect to Applications 1394112 and 1409180, as well as with respect to Husky's Application to Shut In Gas Production to Husky and its Counsel as follows:
