Re: **Application No. 1613543** by Sunshine Oilsands Ltd. for the interim shut in of 104 wells within and around the Liege Wabiskaw O Pool.
and

Application No. 1616123 by Total E&P Canada Ltd. for the interim shut in of the well at Legal Subdivision 6, Section 4, Township 94, Range 17, West of the 4th Meridian (well 6-4-94-17W4).

Sunshine Oilsands Ltd. ("SOL") and Athabasca Oilsands Corp. ("AOSC") will recall that on September 24, 2009 Canadian Natural Resources Limited ("CNRL") issued Preliminary Information Requests to SOL and AOSC (see attached) regarding this matter. During the Technical Meeting of October 27, 2009, on behalf CNRL we again requested this information from SOL and AOSC and, in addition, requested the core analysis for the subject wells from AOSC.

It was our understanding that this information would be provided or a position provided as to why this information would not be provided. CNRL has not yet received any information.

This information is critical to, and required for, CNRL's (and the other Party's) geological evaluation of the area in question. Accordingly, on behalf of CNRL, we reiterate our request for the information identified in the Preliminary Information Requests and for the Core Analysis for the subject wells.

Thank you for your anticipated co-operation.

Yours truly,

ENERLAW LLP
