Attention: Randall W. Block, Q.C.

Dear Mr. Block:

**RE APPLICATION NO. 1613542
SUNSHINE OILSANDS LTD.**

I am assisting Mr. Mousseau on this file and have been asked by ERCB staff to seek a clarification of application material filed by your client, Sunshine Oilsands Ltd.

The application includes Table IV.2, which bears the title "Shut in list". Paragraph 10 of the main application states "A table of the wells that Sunshine seeks to have shut-in is set forth in Table IV.2 (See Tables, Page 2)". Staff note that the perforated intervals identified in the far right-hand column of the table lists some intervals in regular typeface and some intervals in bold typeface. We request that your client indicate the significance (if any) of the difference between the regular typeface and the bold typeface, in particular is your client only asking to shut in the intervals that are in bold typeface?

Yours truly,

Gary D. Perkins
Board Counsel
