Dear Mr. Spencer:

INTERIM SHUT-IN ORDER 03-001
00/04-04-076-06W4/2 WELL

The Alberta Energy and Utilities Board (EUB) has considered your letter dated July 30, 2003, requesting that the 00/04-04-076-06W4/2 (4-4/2) well be withdrawn from the wells listed in Schedule A of Interim Shut-in Order 03-001.

The Board concurs with your assessment that the 4-4/2 well is perforated from 348.0 to 352.0 mKB and that this perforated interval was addressed in *Decision 2003-023* (Appendix 1) and not required to be shut in. Given that *General Bulletin 2003-28* states that decisions made respecting Wabiskaw-McMurray gas production from wells that were considered at the Chard-Leismer hearing (*Decision 2003-023*) are unaffected by Interim Shut-in Order 03-001, the EUB grants your request. The Board will amend the interim shut-in order in due course with this letter serving as approval of your request until that time.

Any questions regarding the above can be directed to the undersigned at 297-7402 or Ken Schuldhaus at 297-3572.

Yours truly,

[Original signed by]

Douglas A. Larder
