Re: APPLICATION TO PRODUCE GAS FROM THE OIL SANDS STRATA FOR THE 100/14-31-68-4W4/0 and 100/06-32-68-4W4/0 WELLS WITHIN THE COLONY A AND UPPER CLEARWATER B FORMATION IN THE FISHER FIELD.

Dear Ms. Law:

EnCana Corporation (EnCana) hereby submits the requested amendment as per our conversation this morning. EnCana understands that objections have been placed by Husky Oil Operations and Canadian Natural Resources regarding gas production from the Clearwater Formation. Since there was no objection to Colony gas production, EnCana requests that the Colony gas portion of the application be withdrawn from the application and be treated separately. This will allow for quicker approval of the Colony gas in the 14-31 and 6-32 wells. Copy of this letter will also be sent to Husky Oil Operations and Canadian Natural Resources.

It is in EnCana's best interest to provide the EUE with as much information as possible. If there is anything further that EnCana can provide the EUB to speed up the approval process, please contact the undersigned at 645-2851. If an EUB approval is granted, please fax a copy of the approval letter to 699-2956.

Sincerely,
EnCana Corporation

Mark Dzikowski
